## Your policy

This is **your policy** which **you** should keep in a safe place.

**Your policy** shows what **you** are insured for and what **you** are not insured for. **You** should read **your policy** and **schedule** and check it is.

## Making a claim

**You** may find the following advice helpful.

- Check **your policy** to see if the loss or damage is insured. Look at Section 1 - Loss or Damage and what is not insured. **Your policy** is not a maintenance contract and **your insurers** do not insure loss or damage caused by wear and tear.
- Get in touch with **Towergate Mardon (Claims)** for a claim form.
- If **you** do not have to have repairs done straightaway, get two estimates if possible and send them to **Towergate Mardon (Claims)** with **your** claim form. Send **your** claim form even if **you** are waiting for the estimates.
- **You** can have emergency repairs done if it stops more damage to **your boat**, or if it means **you** can carry on using **your boat**.
- If **your** engine has been under water **you** must have it flushed out thoroughly with clean fresh water.
- Tell the police immediately if someone has stolen **your insured property** or if it has been damaged by vandals, or if **you** have lost a valuable item.
- If someone makes a claim against **you**, send **Towergate Mardon (Claims)** full details straight away. **You** should send all letters or other documents to **Towergate Mardon (Claims)** immediately without answering them.
- If **you** have any questions or need help in making **your** claim, please get in touch with **Towergate Mardon (Claims)**.

## General Information (continued)

---

After:	One year	- 5%
	Two years	- 10%
	Three years	- 15%
	Four years	- 20%
	Five years	- 25%

Please note that this is not a guarantee that **your premium** will not rise.

### Speedboat clauses

**Your insurers** will use the **speedboat** clauses (**Endorsement G**) if **your boat** is designed to travel at a speed of more than 17 knots or 20 mph.

### Change in circumstances

**You** must tell **Towergate Mardon** as soon as possible about any changes that may affect **your** insurance. In particular **you** must tell them if:

- **you** change **your** address;
- **you** change **your boat** or buy extra gear or equipment;
- **you** or anybody living with **you** are prosecuted for or convicted of theft, fraud, dishonesty or arson.

Please remember that if **you** don't tell **Towergate Mardon** about changes, it may affect any claim **you** make.

## Securing Your Boat

---

Every year thousands of boats are stolen as well as gear, equipment and outboard motors stolen from them. Many of these losses could be prevented by exercising a few simple precautions. Remember, we will do everything we can to help if you are unfortunate enough to have a claim. However, your boat is probably one of your most cherished possessions so please try and take a few moments to read this important message.

### **At little cost – mark it**

Postcode all removable items such as radio, echo sounder, log, navigation systems etc., by engraving with a diamond tipped engraver or electric engraving tool (ultra-violet security pens are not satisfactory in a marine environment).

Etch the hull moulding number or boat registration number on the windows. Keep a record (away from the boat), of all serial numbers and hull moulding numbers.

Register your boat with BMF Boat Mark Scheme.  
Join a local Boat Watch or Marine Watch Scheme.

Stow all small items of equipment away in lockers and out of sight, or better still, take them home.

### **At modest cost – lock it up**

Fit good quality locks (for example: a close shackle hardened steel padlock) to all doors, hatches and deck lockers.

Deadlocks should be morticed into hatches or securely flush mounted, using bolts with locking nuts.

All external doors, opening windows and hatches should be securely fixed to the craft. Locks and hinges should be through-bolted, using locking nuts on the inside or secured with stout screws. The screw heads should be hidden. Better still they should be secured with special security screws.

Hasps and staples should be avoided if at all possible, otherwise they should be through-bolted or at least secured with heavy gauge screws with the screw heads concealed.

Sliding hatch runners should be through-bolted. Large items of equipment that cannot be stowed in lockers should be secured to the craft by means of wire straps and close shackle hardened steel padlocks.

## Securing Your Boat (continued)

---

Outboard motors should be secured by properly constructed proprietary outboard motor locks. For example you can buy a security-locking bolt that replaces one of the normal fixing bolts. An alternative is a hollow tube that slides over the clamping turnbuckles and is then secured by a close shackle hardened steel padlock.

When using a wire strop to secure equipment, ensure that the securing point on the craft cannot easily be removed by unscrewing.

Tenders are vulnerable if they are simply secured to the pontoon by a painter. Use a wire strop and a close shackle hardened steel padlock.

Mark the tender with the name of the parent craft.

Boats kept on road trailers are increasingly becoming a target for thieves. Fit a wheel clamp to one of the trailer wheels to prevent it from being moved. Alternatively a hitch lock may be sufficient provided it covers the tow hitch to the chassis.

Sailboards and dinghies on roof racks should be secured by a wire strop and a close shackle hardened steel padlock. Make sure the roof rack is well secured to the car otherwise the boat and roof rack might go missing!

### **At reasonable cost – alarm it**

The cost of protecting your boat with an alarm may not be as great as you imagine. A simple self-contained passive infra red detector and siren can be bought for around £100. The type of alarm will depend very much on the type and value of your boat and of course your ability to pay. It does however seem a small price to pay to protect a valued possession.

The various types of alarms which should be considered are:

- self-contained alarms;
- alarms triggered by magnetic reed switches;
- passive infra red alarms;
- multi-purpose alarms.

For advice on what crime prevention methods you should adopt or the type of alarm best suited to your own particular needs, contact your local Crime Prevention Officer.
